

## □ LARGE COMMERCIAL PROJECTS

# 727 COLLINS STREET TOWER 2

### Situation

38-storey office tower recognized as a grad A quality office space / re-tested to avoid unnecessary wait times / easy and quick lighting installation.

### Task

Use WBC products to provide lighting to 23 levels of the tower / provide marked up drawings in advance / affordable and effective designed lighting / ease of modifying and reinstallation.

### Action

6,880 total light fittings across 23 floors, that were scheduled for 11 deliveries over a 7month period / pre-test to ensure zero product failures /

### Result

Making sure that all 11 deliveries across the 7 months were on time / marked up drawings designed in advance with the project manager to ensure most affordable and effective design was applied to the tower /
