

## □ LARGE COMMERCIAL PROJECTS □

### 311 SPENCER STREET (VICTORIA POLICE)

#### Situation

A new 42-storey office tower spread across 65,000sqm, being the new headquarters for the Victoria Police. After a time, efficient and cost saving lighting solution for this project.

#### Task

Create a 'turnkey' solution where MyModular can provide this project with WBC 5PIN and MLEX 3PIN.

#### Action

MyModular's WBC 5PIN and MLEX 3 PIN modular power leads and MLEX feeds that went back to the prewired distribution boards, as the fitting of accessories such as GPO's.

#### Result

MyModular was able to provide a 'turnkey' solution that was both cost effective and time efficient. Providing MyModular lighting solutions to 31 office floors equating to more than 100,000 products used.
