

TEMP. LIGHTING PROJECTS

HEATHCOTE BRIDGE LIGHTING

Situation

Nathaniel Hemmings from NTH Solutions contacted us, wanting to use temporary lighting for the Heathcote Bridge upgrade.

Task

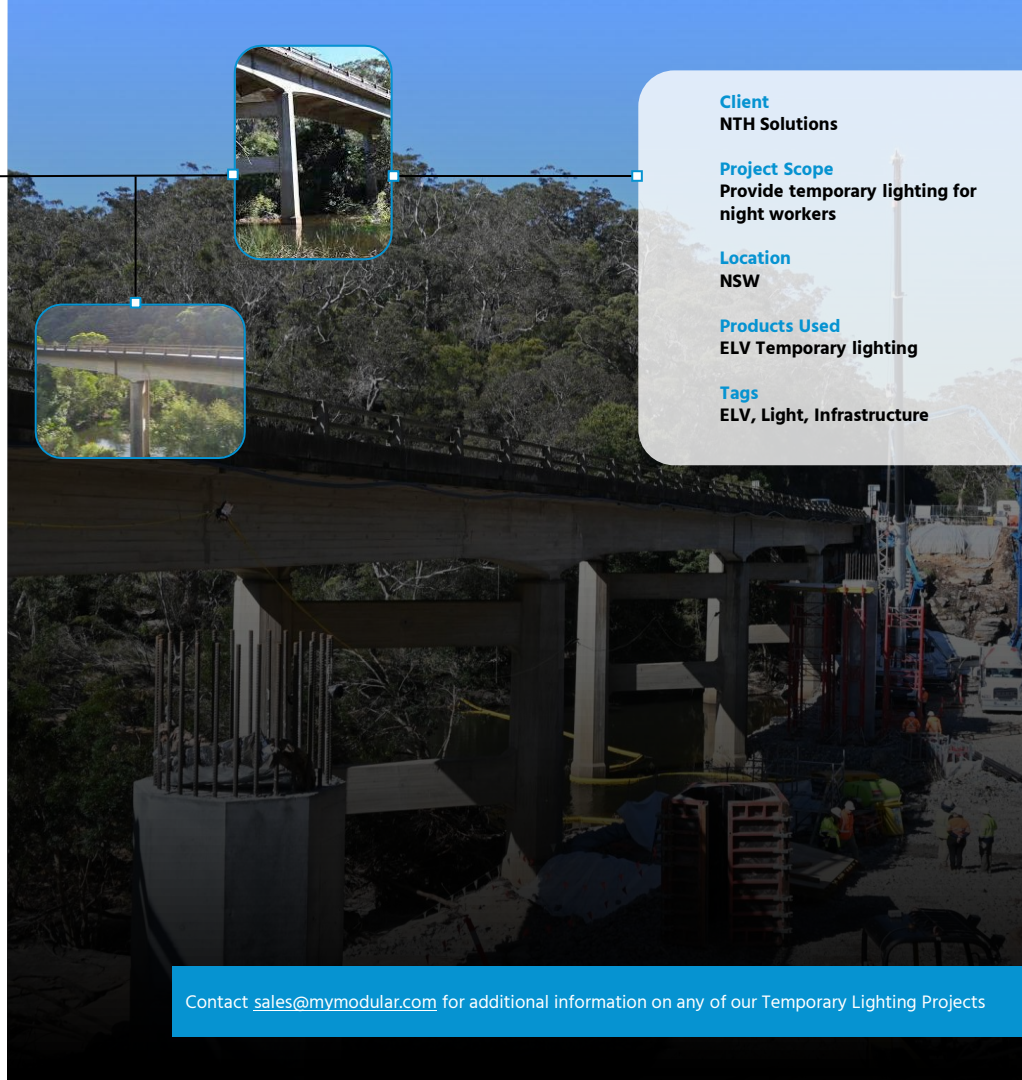

Design a solution to suit the high level requirements so that the night workers would be able to work effectively.

Action

Lights were suspended from a catenary wire to light up the area below the bridge for night workers ease of visibility.

Result

MyModular was able to provide ELV temp. lighting allowing the upgrade to be worked on efficiently.

Client
NTH Solutions

Project Scope
Provide temporary lighting for night workers

Location
NSW

Products Used
ELV Temporary lighting
