

## □ LARGE COMMERCIAL PROJECTS □

# INFINITY TOWER

### Situation

Located in Broadbeach QLD, PESCO approached MyModular to help supply temporary lighting to the building while in construction phase.

### Task

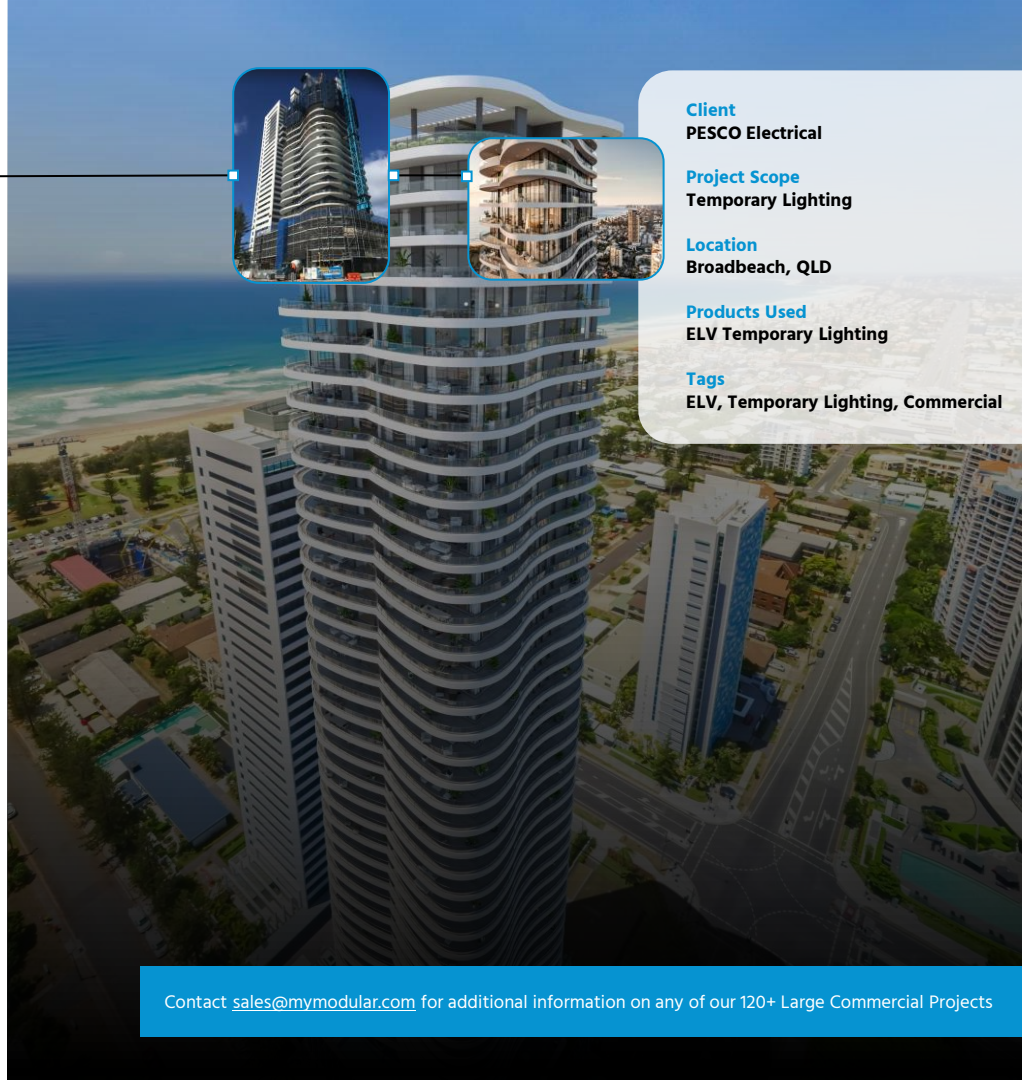

To provide a MyModular ELV lighting solution that is quick and easy to install, pre-tested and flexible design.

### Action

MyModular were able to supply ELV temporary lighting, meaning construction workers were working with a safer, lower voltage and supplying sufficient lighting to dim areas.

### Result

MyModular was able to provide ELV temp. lighting allowing the construction to be worked on efficiently.
