

COMMERCIAL PROJECTS

ANZ MEETING ROOMS

Situation

MyModular collaborate with XFrame to provide power and lighting solutions for ANZ meeting and breakout areas across multiple sites. The alignment of their environmentally conscious values with MyModular's products.

Task

We found that MLEX is best suited for this project scope as MLEX supplies both lighting and power all from one unit with its compact design. The ease of installation, which all our products are held to, made installation times shortened significantly.

Action

Produced all the required products to Xframe across Australia to complete the ANZ meeting rooms and being South Australian manufacturers, lead times were significantly shortened.

Result

Being a local manufacturer, we were able to deliver products with short lead times. Resulting in our customer meeting their deadlines with a breeze. Installation times were cut almost in half, with the help of our plug and play technology.
