

## □ LARGE HOSPITAL PROJECTS □

# CANBERRA HOSPITAL

### Situation

Stowe ACT were contracted to deliver the electrical package for the Canberra Hospital Expansion.

The upgrade is a 40,000sqm new facility to accommodate the growing city and surrounding region.

### Task

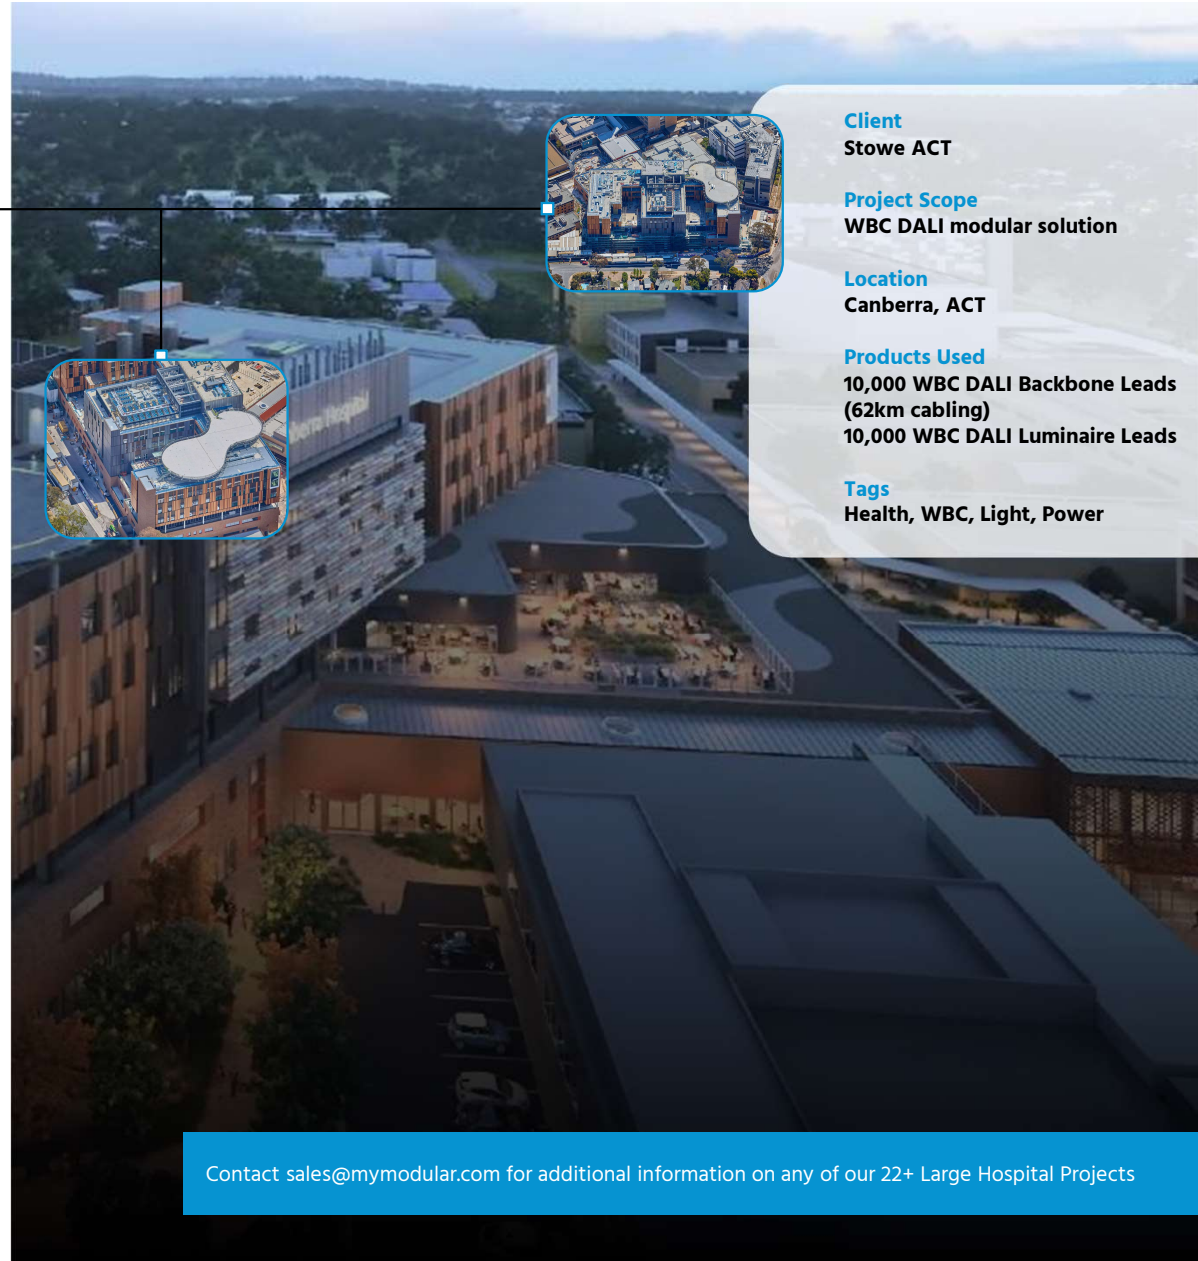

MyModular were provided a bill of materials supplied by Stowe to manufacture DALI leads in white and black (essential and non-essential circuits).

### Action

Essential and nonessential 5pin cabling were manufactured over the duration of several months, no drawings were provided by MyModular as the customer provided lengths required. .

### Result

MyModular comprehensively delivered all leads to site as per the customer's delivery timeframes, allowing Stowe to seamlessly deliver their scope of works.
